Subject: Dates for the short term Menthol Study

Sensitivity: Confidential

All,

I have discussed your request to move up the dates for the study to be run in Apr 2003. Unfortunately, MDS will not be able to meet earlier time lines. This is mainly due to the LNK clinic being occupied and having no open space for a 10 day study prior to late Apr. The best we can do is the Apr dates that were given for the first Series K study(24 Apr- 05 May).

Please keep me updated as to which study you would like to run in late Apr.

Thanks
Kim
